The Self-Contained Electronic Locking System features a single component design that can be easily mounted into a standard panel prep, simplifying the integration of an electronic access solution into cabinet design, and eliminating the need for the wiring or connecting of separate components.

## Standards and Specifications

- Unique electrical override feature
- Keyless entry simplifies access control
- Single component design enables easier integration, with no wiring
- Operates on three AA batteries
- Programming key offers simple, quick enrollment
- Low-power operation extends battery replacement interval (50k cycles)
- LED indicator provides visual feedback during programming and operation
- Secure cam lock mechanism
- Fits industry standard 25x150 panel prep
- Supports 1 programing key, up to 10 manager keys and Up to 10 user keys
- Supports up to 20 RFID cards or PINs
- PIN code can be four to seven digits
- Single point locking only

## ORDERING CODES:

| | |
|---|---|
| **DP-ZM-ES-C** | Standalone el. Latch with Card reader 13.56 MHz and battery case, verification by card only |
| **DP-ZM-ES-K** | Standalone el. Latch with keypad and battery case, verification by PIN only |
| **DP-ZM-ES-PK** | Programing key for standalone el. latch (red) |
| **DP-ZM-ES-MK** | Manager key for standalone el. latch (black) |
| **DP-ZM-ES-UK** | User key for standalone el. latch (black) |
| **RMS-ACS-CMIF** | 13.56 MHz MIFARE® Classic Cards, package of 10pcs |
